19th IAGA Workshop on Geomagnetic Observatory Instruments, Data
Acquisition and Processing

May 22-26, 2023, Sopron-Tihany, Hungary

1st circular

Sopron-Tihany, December 20, 2022

Dear Colleagues!

We announce that the 19th IAGA workshop on
Geomagnetic Observatory Instruments, Data Acquisition and Processing
will be held
at the Tihany Geophysical Observatory (THY) and
in the Institute of Earth Physics and Space Science (EPSS).

The workshop will consist of two parts:

1) an instrumentation and observation focused first part including the
DIM measurement/intercalibration sessions held in Tihany
between May 22 (Monday) to May 23 (Tuesday), 2023

and

2) a second part is a conference including sessions on new measurement
techniques, improved instrumentation, data processing, as well as new
science results based on geomagnetic observations. This second part will
be held at EPSS in Sopron
between May 24 (Wednesday) and 26 (Friday), 2023.

(Transport of participants from Tihany to Sopron will be organized by the
host institution.)

A summer school intended for young technicians and scientists, as well as
for new observers is also planned between
May 21 (Sun) – 22 (Mon), 2023 at Tihany.

2022.12.20 publication of the 1st circular
2023.01.15 preliminary program of the summer school
2023.01.15 publication of the 2nd circular
2023.02.01 start of registration
2023.03.15 deadline for abstract submission
2023.04.15 publication of the 3rd circular, final program
2023.05.15 deadline for registration
2023.05.22-26. IAGA Workshop and Summer School

Local Organizing Committee

chair: Viktor Wesztergom, director of EPSS (host)
István Lemperger (EPSS, Sopron, HU)
András Csontos (EPSS, Tihany, HU)
Balázs Heilig (EPSS, Tihany, HU)
Rubóczki Tibor (EPSS, Sopron, HU)
Barbara Leichter (ZAMG, Wien, AT)
Roman Leonhardt (ZAMG, Conrad Observatory, AT)
László Hegymegi (Mingeo, HU)
